### STEPHEN KWAKU OWUSU BACKS AMO PROGRAMME'S VISION FOR FOUNDATIONAL LEARNING

Stephen Kwaku Owusu, Board Member of AMO Programme foundation and a seasoned education professional has reflected on his commitment to improving education systems nationwide.

He notes that AMO Programme aligns with his belief that every child deserves a solid foundation for learning and emphasized that early childhood education is critical for lifelong development.

*"The idea of Agorɔdi Ma Osuahunu, Playing Gives Experience, resonates deeply,"* he shares, adding that children learn best when actively engaged. He praised the programme's use of locally sourced materials, noting it ensures relevance, sustainability, and accessibility.

### ACTIVE LEARNING THROUGH PLAY WITH THE ANIMAL PUZZLES

At the early stages of learning, children are naturally curious, and the AMO Programme supports this through simple learning materials like the Animal Puzzle.

The Animal Puzzle is designed for young children, using colourful wooden pieces to help them recognize animals such as elephant, duck, dog, and giraffe while learning through play.

It also helps develop problem-solving abilities, hand-eye coordination, and concentration, while supporting interactive teaching through storytelling and discussions.

The puzzle encourages active learning by allowing children to touch, explore, and experiment, making learning more enjoyable and effective. It has proven to be a valuable teaching tool, helping children participate, build confidence, and develop curiosity.

## LAUNCHING OF 30 YEARS ANNIVERSARY CELEBRATION

AMO Programme announces its 30th anniversary celebration scheduled for 22nd April, 2026, marking three decades of promoting active learning and quality education. The theme *“Legacy of 30 Years in Active Learning: Engaging, Elevating, Envisioning”* reflects its commitment to engaging learners, elevating teaching standards, and envisioning the future.

AMO Programme works and continues working closely with schools and educators to make learning practical, interactive, and meaningful through hands-on materials and training.

The launch starts with several activities bringing together educators, partners, and stakeholders to reflect on achievements and share future vision. These activities will continue throughout the year. The celebration highlights collaboration, innovation, and commitment to education, with continued focus on empowering teachers and inspiring learners.

## AMO PROGRAMME RECRUITS EIGHT INTERNS AT ITS WORKSHOP

AMO Programme recruits eight interns from Nsoatre Technical Institute and Abetifi Kyemase Technical Institute as part of its commitment to youth development and skills training. The interns will be assigned to various departments to gain hands-on experience in operations and production. During orientation, they were introduced to the vision, values, workplace expectations, safety protocols, and professionalism.

The initiative aims to build capacity and prepare young people for the professional world through practical exposure. The interns are enthusiastic to learn and develop their competencies, marking an important milestone in their career development. AMO Programme continues to support technical education and national development through partnerships, equipping students with valuable skills because AMO Programme is all about learning.
